

# I Will

*Allen W. Burch*

Bitter herbs and tears  
Mulch, water the spiritual  
Roots of human neuroses  
Surely God sees through  
The 7 habits of highly  
Defective people  
There must be a heart in there  
One that beats, feels

"I knew Job  
Job was a friend of mine  
You're no Job"

Take your pill Eldon  
I will. I will. I will.

*Weltschmerz* or the end of the world?  
Chased dreams, desires  
Runaway slaves  
Not to be recaptured  
Fled like Israel  
While I Pharaoh's rider  
Cast into the sea

"It's not serotonin, slacker  
Shut up and re-read Packer."

Take your pill Eldon  
I will. I will.

Visions  
Seeing life through a  
Lens of despair  
So many questions  
One solitary  
And I mean solitary  
Answer  
Cease. Stop. End.

“Warning! Hamlet in the House.”

Take your pill Eldon  
I will.
